

## Health, Safety and Environmental (HSE) Policy Statement

Continental Resources, Inc., its Executive Leadership Team and all personnel are committed to conducting business operations in a manner that is protective of the health, safety and welfare of company employees, contractors, vendors, visitors, the public and the environment. Furthermore, the organization is committed to conducting business operations in accordance with all applicable regulatory requirements while striving to continuously improve HSE performance.

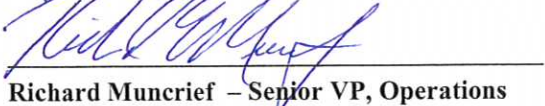

### Our Core Values, Beliefs and Commitments:

- Excellent HSE Performance is critical to the long-term success of the business and a key component in maximizing return to shareholders.
- Achieving HSE excellence requires the commitment and involvement of all levels of the organization.
- We are committed to HSE Excellence. It is a “core value” and we will strive to maintain HSE excellence regardless of the urgency of the job, project or commercial interest.
- Striving to continuously improve HSE performance and compliance through the development, implementation, evaluation and growth of HSE Management Systems is fundamental to HSE Excellence.
- The same level of HSE commitment and performance is expected of contractors and vendors conducting work within Continental Resources’ operations.
